

**71-Doc. 9, R-147**

COUNTY: JEFFERSON  
STATE: KENTUCKY

\*\*\* AFFIDAVIT \*\*\*

COMES NOW THE AFFIANT, ERIC Y. DROGIN, J.D., PH.D., ABPP  
(RETAINED MENTAL HEALTH CONSULTANT IN THE CASE OF *TOMMY LEE  
WALDRIP V. TONY TURPIN, WARDEN*), AND AFTER BEING DULY CAUTIONED  
AND SWORN, STATES THE FOLLOWING TO BE TRUE TO THE BEST OF HIS  
KNOWLEDGE AND BELIEF:

1. I am a licensed psychologist and a Fellow of the American Academy of Forensic Psychology, certified as a forensic psychologist by the American Board of Professional Psychology and the American Board of Forensic Psychology, and serving on the faculty of the University of Louisville School of Medicine, regularly engaged in the practice of forensic psychological assessment.
2. I am a licensed attorney, serving as a Commissioner of the Commission on Mental and Physical Disability Law of the American Bar Association, as Chair of the Behavioral Science Committee of the American Bar Association, and as Chair of the Health Law Section of the Federal Bar Association.
3. I have reviewed extensive legal and mental health records pertaining to the prior assessment and adjudication of Tommy Lee Waldrip, appellant in the above-styled case.
4. Prior to trial, Mr. Waldrip was evaluated by psychologist Robert J. Storms, Ph.D., a witness for the prosecution, who administered only one personality test, the Minnesota Multiphasic Personality Inventory (MMPI-2).
5. Dr. Storms stated in his report of 19 August 1994 that there was "no evidence of psychosis" in Mr. Waldrip's MMPI-2 results [page 4, paragraph 3, lines 2-3]
6. Dr. Storms testified at the competency hearing that "based on this [sic] data," Mr. Waldrip's condition involved "basically stress-induced stuff" [p. 726, lines 8-10], that Mr. Waldrip was "in touch with reality" [p. 727, lines 21-22], that "[Mr. Waldrip's] MMPI [sic] results gave no indication of psychosis" [p. 736, lines 5-6], and that he did not administer any other personality testing because this would only be necessary "when things aren't quite as obvious as they were in this case" [p. 723, lines 6-7].

0219

7. Dr. Storms noted again at trial that "[t]he MMPI [sic] is a direct and powerful test of emotional disturbance" [p. 3105, lines 21-22], and further characterized this measure as "a very valid and reliable test" [p. 3098, line 15], ultimately denying that Mr. Waldrip's results contained "anything" that might even "suggest" the presence of "psychotic thinking" [p. 3099, lines 3-6].
8. At trial, Dr. Storms dismissed other evidence of psychotic functioning with the following remarks: "I have only [Mr. Waldrip's] self-report to go on. Certainly the test results did not confirm his symptoms" [p. 3104, lines 14-16], and concluded that Mr. Waldrip "did not exhibit any type of mental illness that would impair his contact with reality" [p. 3112, lines 13-14].
9. A second prosecution witness, psychiatrist Everett Kuglar, M.D., testified at trial that delusional individuals "usually have a pretty significantly elevated score on one of the psychological tests, i.e. the MMPI-II [sic], which is the one we gave" [p. 782, lines 22-24], and characterized the MMPI-2 as "one of the most standard, most widely used personality tests" [p. 801, lines 7-9], having noted that "we could find no evidence for his being psychotic" [p. 785, lines 7-8].
10. The test results in question, utilized by Drs. Storm and Kuglar in formulating their opinions regarding Mr. Waldrip's mental state, were *INVALID* due to a very basic -- and very serious -- error in scoring.
11. Scale 8 ("Schizophrenia") of the MMPI-2 "was developed to identify patients diagnosed as schizophrenic," with significant elevations indicating that "[m]isinterpretations of reality, delusions, and hallucinations may be present." JOHN R. GRAHAM, MMPI-2: ASSESSING PERSONALITY AND PSYCHOPATHOLOGY 72 (2nd ed. 1993).
12. Examination of Mr. Waldrip's MMPI-2 protocol reveals that Dr. Storms added 16 and 24 to obtain a total of "30" [sic] raw score points for the "Schizophrenia" scale.
13. The result of Dr. Storms' glaring miscalculation was to ascribe a converted score of 55 to Mr. Waldrip for the "Schizophrenia" scale, which would, indeed, fall within the normal range.

14. Had Dr. Storms scored Mr. Waldrip's MMPI-2 protocol correctly, identifying a total raw score of 40 points, a converted score of 74 would have been ascribed, properly **placing Mr. Waldrip's results within the abnormally elevated range for the "Schizophrenia" scale.**
15. My characterization of Dr. Storms' error is not subject to vagaries of mathematical or scientific interpretation; rather, it identifies a fundamental lapse of technique, concerning which no contrary conclusion can logically be reached.
16. Computer-assisted analysis reveals additional errors in Dr. Storms' scoring of scales F, Hs, and Ma of Mr. Waldrip's MMPI-2 protocol, although these errors are not as grave as that pertaining to the "Schizophrenia" scale.
17. Dr. Storms used a 400-item (not 567-item) version of the MMPI-2 to assess Mr. Waldrip; this is curious in light of the fact that "[u]sing an incomplete or partial form of the MMPI can [lead] to considerable difficulty for the psychologist in court." KENNETH S. POPE ET AL, THE MMPI, MMPI-2, AND MMPI-A IN COURT 23-24 (1993).
18. In my professional opinion, the scientific conclusions of Drs. Storms and Kuglar are of highly questionable validity, to the extent that they have relied upon Dr. Storms' erroneous scoring of the only standardized personality testing they administered to Mr. Waldrip.

FURTHER THE AFFIANT SAYETH NOT.

  
 Eric Y. Drogin, J.D., Ph.D., ABPP (Forensic)  
 University of Louisville School of Medicine  
 P.O. Box 22576  
 Louisville, KY 40252-0576  
 (877) 877-6692

SUBSCRIBED AND SWORN TO BEFORE ME BY ERIC Y. DROGIN,  
 J.D., PH.D., ABPP ON THIS 19<sup>th</sup> DAY OF May, 1999.

  
 NOTARY PUBLIC, KENTUCKY STATE AT LARGE

MY COMMISSION EXPIRES: September 10, 2000

Spring 1999

**CURRICULUM VITAE for Courtroom Use**

**Eric York Drogin, J.D., Ph.D., ABPP**

P.O. Box 22576, Louisville, Kentucky 40252-0576  
(877) 877-6692

**Academe**

Department of Psychiatry and Behavioral Sciences, University of Louisville School of Medicine, Louisville, Kentucky (Associate Clinical Professor, 1997-present; Assistant Clinical Professor, 1992-97; Executive Faculty Member, 1996-present; Clinical Faculty Member, 1992-present).
